RIYAD ALSHEHRI

Cybersecurity Specialist | SOC Analysis & Digital Forensics and Incident Response (DFIR)

Saudi Arabia | +966 55 401 3027 | riyadalshehri777@gmail.com | linkedin.com/in/riyad-alshehri

SOC Operations | DFIR | Threat Hunting | SIEM & EDR | Malware Triage | MITRE ATT&CK

PROFESSIONAL SUMMARY

Cybersecurity specialist focused on Security Operations (SOC) and Digital Forensics and Incident Response (DFIR), currently completing the Advanced Cyber Crime and Digital Forensics Bootcamp at Tuwaiq Academy. Holds eCIR (Certified Incident Responder), eJPTv2, CAPT, CompTIA Security+, and CompTIA Network+ certifications, with hands-on skills in Windows, memory, and disk forensics, timeline analysis, threat hunting, SIEM and EDR investigation, and malware triage mapped to MITRE ATT&CK. Brings practical experience supervising enterprise IT and data center operations, applying security best practices to protect networks and services. B.Sc. in Computer Engineering from Umm Al-Qura University.

PROFESSIONAL EXPERIENCE

Advanced Cyber Crime and Digital Forensics Bootcamp — Sep 2026 – Present

Tuwaiq Academy | Saudi Arabia

- Intensive training in digital forensics and incident response, covering Windows, memory, disk, and mobile forensics, evidence handling and chain of custody, and incident handling following the NIST and SANS frameworks.
- Applying forensic and detection tools, including Autopsy, FTK Imager, KAPE, Velociraptor, Volatility, and Eric Zimmerman Tools, to investigate compromises and reconstruct attack timelines.

IT Unit Supervisor — Nov 2024 – Sep 2025

Alsalam ASC | Makkah, Saudi Arabia

- Managed data center infrastructure and enterprise IT systems, applying security best practices to protect networks and services.
- Directed daily IT operations, ensuring system stability, uptime, and compliance with security best practices.
- Administered Windows Server and Active Directory environments, including user administration, access control, and security hardening of servers, switches, and routers.
- Contributed to improvement plans that enhanced performance, reduced downtime, and strengthened the overall security posture.

IT Specialist — Mar 2024 – Nov 2024

Alsalam ASC | Makkah, Saudi Arabia

- Supported the setup and operation of a large-scale technology exhibition, integrating 26+ interactive displays, holograms, and smart systems.
- Configured and troubleshot systems, resolving connectivity and hardware issues promptly.
- Collaborated with engineers to ensure interoperability across multiple systems and platforms.

Technical Support Trainee — Jun 2022 – Aug 2022

Saudi Telecom Company (STC) | Abha, Saudi Arabia

- Provided IT support, including computer and printer configuration, domain setup, and troubleshooting.
- Supported the installation and configuration of residential fiber optic networks under supervision.

CERTIFICATIONS

- **eCIR – Certified Incident Responder** — INE Security | Mar 2026
- **eJPTv2 – Junior Penetration Tester** — INE Security | Dec 2025
- **CAPT – Certified Associate Penetration Tester** — Hackviser | Nov 2025
- **CompTIA Security+** — CompTIA | Jun 2024
- **CompTIA Network+** — MCIT – Learning Space | Aug 2023
- **Cybersecurity Essentials** — Cisco | Jun 2023

TECHNICAL SKILLS

Digital Forensics: Windows Forensics (Event Logs, Registry, Prefetch, Amcache, MFT, Shellbags), Memory Forensics (Volatility), Disk Forensics & Disk Imaging, Timeline Analysis, Mobile & Media Forensics (EXIF, Hashing, Tamper Detection), Chain of Custody & Evidence Handling

Incident Response & Threat Hunting: Incident Handling Lifecycle (NIST / SANS), Triage, Containment, Root Cause Analysis, Threat Hunting, Compromise Assessment, Active Directory Attack Investigation

SOC Operations & Detection: SIEM (Splunk, ELK, Microsoft Sentinel), EDR, Wazuh, Security Event Monitoring, Alert Triage, Log Analysis, Sigma Rules, YARA Rules

Threat Intelligence & Malware Analysis: Malware Triage (Static / Dynamic), Threat Intelligence, IOC Analysis, MITRE ATT&CK Framework

Forensic & Security Tools: Autopsy, FTK Imager, KAPE, Velociraptor, Eric Zimmerman Tools, Volatility, Wireshark, Nmap, Nessus, Burp Suite, Metasploit, Windows Event Viewer

Network & Infrastructure Security: Network Forensics, Network Security, Networking, Firewall Configuration, Access Control, System Hardening, Vulnerability Assessment, Penetration Testing Fundamentals

Systems & Scripting: Windows Server, Active Directory, Linux, Python, PowerShell

EDUCATION

Bachelor of Science in Computer Engineering **Mar 2023**

Umm Al-Qura University | Makkah, Saudi Arabia

VOLUNTEER EXPERIENCE

- Contributed 200+ volunteer hours through the Saudi Volunteer Platform, managing a team to distribute Iftar meals during Ramadan.
- Participated in charitable initiatives supporting underprivileged communities and orphans.

SOFT SKILLS & LANGUAGES

Soft Skills: Analytical Thinking, Communication & Documentation, Team Collaboration, Structured Problem Solving, Continuous Learning

Languages: Arabic (Native) | English (Intermediate)
